

Health Economic Modelling

We work in partnership with our clients to optimise market access for new healthcare interventions

About us

- Source Health Economics was founded in 2016; we are a team of specialists in health economics, medical writing, systematic review, statistics, meta-analysis, and health technology assessment
- We are based in central London, Oxford, and Cheshire

Our team

- Our health economics team consists of 13 economists, with experience of developing cost-effectiveness models in numerous clinical areas
- The team has extensive experience in all aspects of cost-effectiveness modelling design, from conceptualisation to producing HTA-ready models
- The team includes economists who have worked at or for NICE, including as membership of its Technology Appraisal Committee and Decision Support Unit

Our services

- We produce the full spectrum of deliverables, including the development or update of early CEMs, global CEMs, and budget impact analyses
- We also provide/undertake:
 - Individual patient data analyses
 - Statistical analysis plans
 - Advice on trial endpoints
 - Methodological analyses
 - Elicitation exercises
 - Model validations
 - Training
 - Strategic advice
 - NMA
