

SOURCE
HEALTH ECONOMICS

INSPIRED BY SCIRIS™

This is the first time I have used Source for a manuscript and their standard of writing is very good. With good project management and communication, flexibility, and attention to detail. We will continue to use Source for further work needs and would recommend to others. I can't fault them

UK Market Access Director

This was a long process and timelines changed a lot. <The team's> flexibility was hugely appreciated, especially when timelines were unexpectedly tight! It was a pleasure working with you, thank you
